

# Machine Specs

- \* 2 kW Fibre Laser Source
- \* Max bar length: 6500
- \* Bar weight capacity : 17kg per/m
- \* Automatic loading, measurement, cutting and unloading
- \* Weld seam detector
- \* Engraving

Rect. Tube  
Max Diagonal : 170mm  
Max length of one side: 152mm

Round Tube  
Max Dia : 152 Ø

Square Tube  
Max Square : 120mm

Channel  
Max Diagonal : 170mm  
Max length of one side: 152mm

Angle Iron  
Max Diagonal : 170mm  
Max length of one side : 152mm

Flatbar  
Max width: 152mm

## Material Capabilities

| Material        | Thickness |
|-----------------|-----------|
| Stainless Steel | 5mm       |
| Mild Steel      | 8mm       |
| Aluminium       | 5mm       |
| Brass           | 5mm       |
| Copper          | 3mm       |

\* Max bar weight p/m: 17 kg
